

**A NATIONAL PARK
SOUNDS LIKE A
LOVELY IDEA UNTIL
YOU FIND OUT
WHAT IT MEANS
FOR YOU!**

- NO Hunting
- NO Prospecting
- NO Dirt Bike Riding
- Restricted 4WDing
- Paid Camping
- Dogs/Pets Prohibited
- Restricted Fishing
- NO Firewood Collection

BEHIND THE PUSH TO LOCK UP OUR
STATE FOREST IS THE ACTIVISTS'
DESIRE TO BLOCK THE RETURN OF
THE TIMBER INDUSTRY IF THE
LIBERALS GAIN POWER.

THE GREAT
FOREST
NATIONAL
PARK!**

YOUR FREEDOMS ARE BEING SLOWLY TAKEN AWAY!

- Fancy words are being used to hide the limitations being imposed. The Labor Government and activists supporting the Great Forest National Park are aware of the other pieces of legislation that will impact your use of the bush. It's time to make a stand! Enough is enough! Aussies are passionate, but we need to make sure this passion is put into action.
- The initial consultation that claimed 89% of Victorians supported the Great Forest National Park was conducted with a select group in favor of the decision. The majority of bush users were not consulted. The so-called engagement sessions were hard to find out about and only asked biased questions to support the national park. The Public Land Act will strip your access as well. There is more than one front to fight on this issue.

IT'S NOT ABOUT PROTECTING THE ENVIRONMENT

If you love this land, then you will want to know about the impact of the Energy and Public Land Legislation Amendment Bill.

There is a major concern within this piece of legislation that all state forests, national parks, and crown land will be available for use for wind farms and the creation of power lines to transfer the power from the wind turbines. This means that trees will be cut down and the Leadbeater's possum's homes will be destroyed. They are banning the timber industry under the guise of protecting the trees and the possums while knowing they have their own plans for this bush.

Don't let them continue this charade. Don't let them take our bush from your children and grandchildren.
